POT GROWN

Strawberry Plants

The blossoms of all cultivated strawberries are either bi-sexual (perfect) or pistillate (imperfect). All the varieties offered in this list have perfect blossoms and none, therefore, require the association of another kind in order to be fruitful. We have discarded all pistillate varieties.

Barrymore (Mid-Season to late). A beautiful dark crimson, large fine berry of high quality. \$6.00 per 100.

Brandywine (Mid-Season). Large bright crimson berries of excellent quality and flavor. \$6.00 per 100.

Bushel Basket (Mid Season). A giant in both plant and fruit, enormously prolific and of high quality. \$8.00 per 100.

Campbell's Early. A valuable early variety producing large crops of rich red berries. \$6.00 per 100.

Chesapeake (Mid-Season to late). A popular sort, the berries are large and beautiful, regular in form and size and of excellent flavor. \$7.00 per 100.

Commonwealth. Very late extra large variety, fruit dark red and juicy. \$7.00 per 100.

Edmund Wilson. (Mid-Season). The largest variety in existence; fruit very dark in color and of superb quality. \$8.00 per 100.

Early Jersey Giant. The earliest large fruited variety and by far the best extra early strawberry known. The brilliant crimson berries have a delightful aroma and a rich mild "Wild Strawberry" flavor. \$7.00 per 100.

Gandy. A popular late fruiting variety, large bright crimson fruit. \$6.00 per 100.

Glen Mary. A fine mid-season variety of large size, great productiveness and good quality. \$6.00 per 100.

Hundred Dollar. A splendid mid-season variety. Produces very large light scarlet berries of high quality. \$6.00 per 100.

Joe. This most valuable variety ripens just after "Chesapeake," equals it in size, firmness and yield, and surpasses it in color and flavor; succeeds upon almost all soils. \$6.00 per 100.

- John H. Cook.** A second early variety and an enormous cropper. The berries are of exquisite quality; blood red in color and very firm. \$8.00 per 100.
- Marshall.** (Mid-Season). An old and popular variety of large size, fine quality and handsome appearance. \$6.00 per 100.
- Nick Ohmer.** (Mid-Season to late). Fruit large, dark glossy red and of excellent quality. \$6.00 per 100.
- Pearl.** Considered the best of the very late varieties. The bright scarlet berries are extra large and of superior quality. \$8.00 per 100.
- St. Martin.** (Mid-Season to late). A very large berry that holds its size right through the season. To describe it briefly is to call it an improved "Marshall." \$8.00 per 100.
- Sharpless.** A fine late variety producing handsome large berries. \$6.00 per 100.
- Steven's Late Champion.** This late variety is remarkable for its heavy cropping qualities. The berries are large, perfect in form, and of a bright crimson color. \$6.00 per 100.
- Success.** Considered the best of the very early varieties. The bright scarlet berries are large and uniform in size, color and shape. \$6.00 per 100.
- Wm. Belt.** An all-season variety, fruiting from early to quite late, the berries are large, handsome and full flavored. \$6.00 per 100.

Fall Bearing Strawberries

The fall-bearing, or so styled "Ever-bearing" Strawberries are interesting and have merit. Fortunately, nearly all of them are excellent in quality and give a heavy yield of fruit in June. If the blossoms are removed from the plants until the middle to the last of June, the autumn crop will be very greatly improved, both in size and yield. Aside from removing the blossoms by hand picking, the culture of these autumn-bearing varieties is the same as other Strawberries.

- Advance.** The berries are nearly round, of good size and shape; deep crimson, firm and of good quality. \$9.00 per 100.
- Progressive.** One of the most popular and prolific of the Fall Bearing sorts. The berries are smooth and uniform in size and shape and of a deep crimson color. \$8.00 per 100.
- Lucky Boy.** Claimed to be the biggest, sweetest and most productive variety as yet produced. It is larger than "Superb," more round in shape and is very much firmer. \$10.00 per 100.
- Superb.** The best known of the Fall Bearing varieties. Produces very attractive flame colored berries of superb quality. \$8.00 per 100.
